Clamp-N-Jack

The Clamp-N-Jack Master Set and individual components will meet all your clamping and jacking needs and assure the safe completion of all your work!!

ADJUSTABLE

Easy setup for different projects.

EASY SETUP

All the right parts at your finger tips in a custom cabinet eliminating the need to hunt for the right pieces.

QUICK CHANGES

Once you lock up the first piece, system height is set for the entire run.

SAFE

Parts are stable and connected together in order to prevent accidental releases under heavy loads.

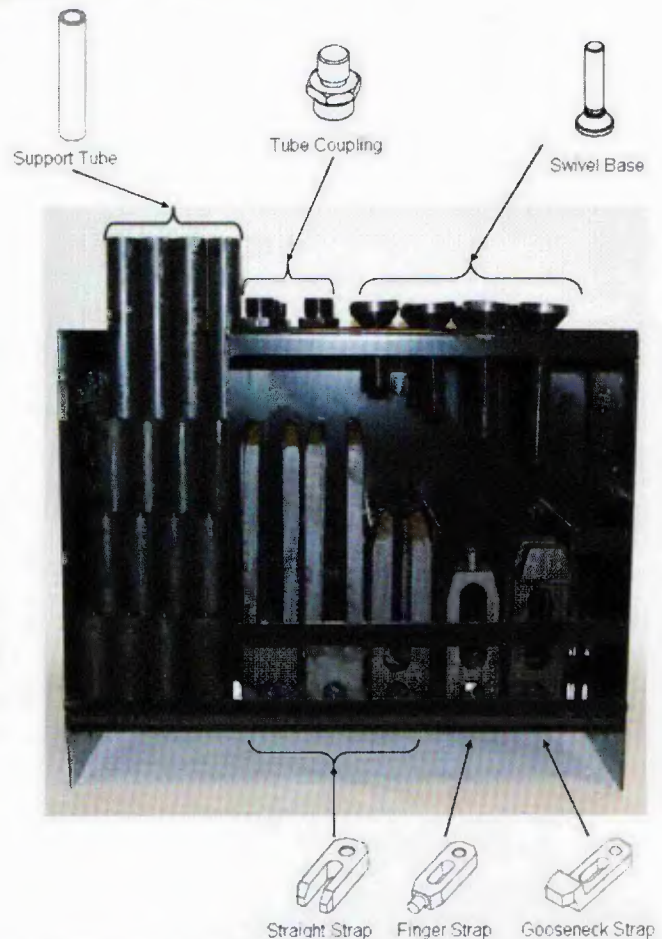

QUALITY

Strict quality assurances means your

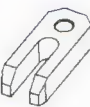

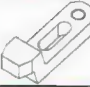

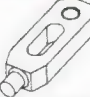

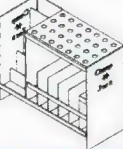

Clamp-N-Jack system is made to work together smoothly for many years.

VARIOUS SIZES

What size fits your needs? The Clamp-N-Jack system is made in a variety of sizes to meet your needs.

The Triple E Clamp-N-Jack Master set is the highest quality work holding set on the market!

The *Clamp-N-Jack* system is infinitely adjustable providing safe and positive clamping of all large or small jobs. It consists of a series of support tubes, adjustable swivel bases, studs, and several types of straps. The Triple E *Clamp-N-Jack* system is hardened to Rockwell "C" hardness of 34-38 and chemically treated to a satin black finish for long life and maximum strength.

Individual or multiple additional pieces can be purchased to outfit your standard set to meet your unique and specific clamping needs. Each *Clamp-N-Jack* set is furnished with a bench cabinet and all parts are arranged so they can be selected quickly.

Price List	
MSA (for 1/2" to 7/8" studs):	\$1,025.92
MSA-1 (for 1/2" to 1" studs):	\$1,344.00
