Pricing valid from Dec. 1, 2018 to Jan. 31, 2019

PREMIUM ROTARY TOOL HOLDERS

ER COLLET CHUCKS

- ◇ 100% forged construction
- ◇ Premium balanced to 30,000 rpm
- ◇ DIN coolant through the flange - standard
- ◇ All traverse ground body
- ◇ Threaded through holes for a back-up screw (tool stop) or coolant through when removed

INTEGRAL DRILL CHUCKS

- These chucks provide exceptionally high torque - up to 3X the standard gripping strength . The design eliminates any possibility of chuck / holder misalignment, and it assures separation safety.
- ◇ High precision, premium tolerance
 - ◇ The jaws feature a TiN coated surface treatment to assure durability.

Buy any combination of 10 or more and get 15% off the sale price!

Please mention the promo USF2184 at the time of ordering.

5 MICRON AA ER COLLET SETS

DIN 6343 Precision Collets have a runout of 20-30 microns (0.02 - 0.03mm).
 GS High Precision Collets have a runout of 10-20 microns (0.01 - 0.02mm).
 The new GS Extreme Precision AA Collets have a runout of only 5 microns (0.005mm).

Features & Benefits:

- Maximized concentricity
- Increased tool life
- Evenly distributed cutting edges for high performance machining
- Minimized variation of cutting edges
- Consistent cutting profiles ensure the job stays within desired tolerances
- Improves system performance and lowers cost per piece when used with quality GS chucks

The result of an improved AA collet in a quality chuck is increased gripping force, improved rigidity, decreased runout, and a renewed confidence in your collet chuck system.
